MYO SETT PAING

msp.myosettpaing@gmail.com | Yangon, Myanmar | +959450122313 | linkedin.com/in/myo-sett-paing-msp

PROFESSIONAL SUMMARY

IT professional with 3+ years of IT administration experience and hands-on experience in cybersecurity operations and security testing. Experienced in supporting multi-site IT environments, managing user access, maintaining LAN/WAN connectivity, and preparing technical documentation. Completed a Junior SOC Analyst internship and worked as a Junior Penetration Tester testing web applications and APIs in a UAT environment. Seeking to contribute to Cybersecurity and Cloud Infrastructure while developing further skills in AWS and DevOps practices. Bilingual (Burmese/English).

TECHNICAL SKILLS

Infrastructure & Systems: Windows and Linux administration; LAN/WAN; TCP/IP; network troubleshooting; user account management; role-based access control; VMware environment exposure.

Monitoring & Logging: Wazuh SIEM/XDR; ELK Stack; security alert monitoring and triage; log analysis; initial event investigation; incident documentation.

Security & Testing: UAT environment testing; API testing (Burp Suite, curl); OWASP Top 10; Tenable Nessus Professional.

Standards & Frameworks: ISO/IEC 27001:2022 (Information Security Associate); OWASP; CVSS.

Documentation: SOPs; technical reports; bilingual (Burmese/English) guides.

PROFESSIONAL EXPERIENCE

Junior Penetration Tester | **Creatigon, Yangon** | *September 2026*

- Tested web applications and APIs in a UAT environment, validating access-control, parameter-handling and session-management behaviour with Burp Suite Professional and curl.
- Reproduced and validated IDOR/BOLA defects, capturing step-by-step evidence.
- Documented findings in structured reports for the team.

Junior SOC Analyst (L1) Intern | **ATG Systems, Yangon** | *May 2026 – July 2026*

- Monitored and triaged security alerts using Wazuh SIEM/XDR and ELK Stack.
- Escalated potential security incidents according to SOC procedures.
- Prepared security reports, incident documentation, and project deliverables to support SOC operations.
- Conducted vulnerability assessments using Tenable Nessus Professional and documented identified weaknesses.

IT Administrator | **Brainworks-Total K-12 Integrated School, Yangon & Mawlamyine |** *June 2022 – Nov 2025*

- Managed school IT environments across two locations, supporting LAN/WAN infrastructure, system availability, and end-user computing environments.
- Delivered knowledge-sharing sessions for teachers on handling daily classroom tech troubleshooting.
- Instructed Primary 1 and 2 students in foundational ICT concepts, basic programming and logical thinking.
- Managed user accounts and role-based permissions for the school's teacher and student web platforms.
- Wrote troubleshooting SOPs, reported to the Head of School, and trained a junior team member on all daily IT responsibilities.

TRAINING, EDUCATION & CERTIFICATES

Training — Creatigon (web security lab and CTF exercises (SQLi, XSS, LFI); vulnerability reports)

Education — Bachelor of Computer Science: University of Computer Studies, Pathein (2027)

Certificate — Junior Web Security Certificate (Creatigon); ISO/IEC 27001:2022 IS Associate; CompTIA Security+ (In Progress)

LANGUAGES

Myanmar — Fluent | English — Working Proficiency
